OMB Circular No. A-87 USDA Smart Snacks in School Food Guidelines (effective July 1, 2014)
SP 32-2015 Statements Supporting Accommodations for Children with Disabilities in the Child Nutrition Programs

The Educational Service Provider may provide food service for the purchase and consumption of lunch for all students.

The Educational Service Provider may also provide a breakfast program in accordance with procedures established by the State Department of Education.

The provided food-service program shall comply with Federal and State regulations pertaining to the selection, preparation, delivery, consumption, and disposal of food and beverages, including but not limited to the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, and to the fiscal management of the program. Operation of such a program shall be as follows.

Substitutions to the standard meal requirements shall be made, at no additional charge, for students for whom a healthcare provider who has prescriptive authority in the State of Michigan has provided medical certification that the student has a disability which restricts his/her diet, in accordance with the criteria set forth in 7 CFR 15(b).

On a case by case basis, substitutions to the standard meal requirements may be made, at no additional charge, for students who are not "disabled persons", but have a signed statement from a qualified medical authority that the student cannot consume certain food items due to medical or other special dietary needs.

For non-disabled students who need a nutritional equivalent milk substitute, only a signed request by a parent or guardian is required.

The operation and supervision of the food-service program shall be the responsibility of the Educational Service Provider. Food services shall be operated on a self-supporting, nonprofit basis with revenue from students, staff, Federal reimbursement, and surplus food. The Board shall assist the program by furnishing available space, initial major equipment, and utensils. Maintenance and replacement of equipment is the responsibility of the program. In addition, as required by law, a food safety program based on the principles of the Hazard Analysis and Critical Control Point (HACCP) system shall be implemented with the intent of preventing food-borne illnesses. For added safety and security, access to the facility and the food stored and prepared therein shall be limited to food service staff and other authorized persons.

A periodic review of the food-service accounts shall be made by the Educational Service Provider and such accounts shall be audited as part of the School's annual audit.

Bad debt incurred through the inability to collect lunch payment from students is not an allowable cost chargeable to any Federal program. Any related collection cost, including legal cost, arising from such bad debt after they have been determined to be uncollectable are also unallowable.

Bad debt is uncollectable/delinquent debt that has been determined to be uncollectable by the end of the school year in which the debt was incurred. If the uncollectable/delinquent debt cannot be recovered by the School Meals Program in the year when the debt was incurred, then this is classified as bad debt. Once classified as bad debt, non-Federal funding sources must reimburse the NSFSA for the total amount of the bad debt. The funds may come from the Academy general fund, State or local funding, school or community organizations such as the PTA, or any other non-federal source. Once the uncollectable/delinquent debt charges are converted to bad debt, records relating to those charges must be maintained in accordance with the record retention requirements in 7 CFR 210.9(b) (17) and 7 CFR 210.15(b).

The Educational Service Provider is authorized to develop and implement an administrative guideline regarding meal charge procedures. This guideline will provide consistent directions for students who are eligible for reduced price or paid meals but do not have funds in their account or in hand to cover the cost of their meal at the time of service.

This guideline shall be provided in writing to all households at the start of each school year and to households transferring to the School during the school year.

With regard to the operation of the School food service program, the Educational Service Provider shall ensure:

- A. the maintenance of sanitary, neat premises, free from fire and health hazards;
- B. the preparation of food that complies with Federal food safety regulations;
- C. the purchase of foods and supplies, in accordance with State and Federal law, USDA regulations, and Board policy
- D. complying with food holds and recalls in accordance with USDA regulations;
- E. the management (accounting and disposition) of food-service funds pursuant to Federal and State law and USDA regulations;
- F. the safety and safekeeping (storage) of food and food equipment pursuant to USDA regulations.

The School shall serve only nutritious food as determined by the Food Service Program in compliance with the current USDA Nutrition Standards for the National School Lunch and School Breakfast Programs and the USDA Smart Snacks in School nutrition guidelines. Foods and beverages unassociated with the food-service program must comply with the current USDA Nutrition Standards for the National School Lunch and School Breakfast Programs and the USDA Smart Snacks in School nutrition guidelines, and may be vended in accordance with Board Policy 8540.
